25X1	4.	During the period of observation the engineer units were repeatedly seen engaged in practices with boats and pneumatic rafts on the lake east of the club house buildingnoticed steam pile driver on 26 May. On 4 June, 12 pontoons were on the northern bank of the Tollensesee (lake) near an en-	
25X1X		gineer training site located there. Truck was seen bein 25X1 loaded with lumber.	
	1.	Comment. The engineer battalion, commanded by Major Kiesslich,	٠,
25X1	2.	25X  Comment. It is possible that the engineer battalion of Armee Grupps Nord may be converted into an engineer regiment. Up to about May 1953, the	. I
		installation mentioned quartered the engineer battalions of the division in Prenzlau under the command of Major Krause and of the mechanized division in Eggesin under the command of Major Teller (fnu). It can rather safely be stated	
•		exercised the functions of a senior officer. Senior Lieutenant Windisch was previously reported as PK officer and Senior Lieutenant Petzold as chief of staff with the battalion of Major Kiesslich. The information on organization and strength of the engineer unit must be accepted with reserve.
